FAILED TO IDENTIFY THEM

Mr. Cooley and Wife Not Parties Wanted in Kalamazoo—Clever Swindle of Prof. Harrington.

After a long and tiresome journey of [illegible] days and two nights, Sheriff Chas. [illegible]an and Mrs. W. R. VanNoppen, of Kalamazoo, Mich., arrived last night. The last named to identify and take officer to take back with him to the Northwest C. J. Cooley and wife, arrested on suspicion of being Prof. Harrington and wife, wanted in Kalamazoo and in several other cities in the East for grand larceny. The identification, however, fell down completely and Mr. and Mrs. Cooley were given their liberty with apologies for having caused them the unnecessary trouble.

Mrs. VanNoppen, who came to identify the parties and from whom Harrington stole by trick $740, is a young woman, very attractive, cultured and refined. She preferred not to speak of the affair more than possible and said Harrington was an exceedingly clever swindler and posed as a clairvoyant and hypnotist, being patronized during his stay in Kalamazoo by among the very best people, his manner and bearing being that of a gentleman. He made a house to house canvass and impressed one wonderfully; in fact, so much so, that Mrs. VanNoppen entrusted to him $740, which he took, promising her overnight to inform her next morning of the best investment for the amount. When morning dawned Harrington and his wife and left between suns and the inhabitants of the city, who had been roped in, during a day and night were short $2,000 as the result of the clever operations of the swindlers, who operated a similar game in small cities all over the country.

Sheriff Shean and Mrs. VanNoppen are guests at the Colonial Inn and will return to Kalamazoo this evening, "disappointed but not dismayed." Sheriff Shean is an enthusiastic Elk, a clever gentleman and is enjoying his first visit to the South. He says there will be no let up in the efforts to find Harrington, who is wanted pretty nearly all over the country.

LOCAL DOTS.

—Henry Lee has applied for a permit to build a one-story frame house on Eighth, near Meares street.

—The local post of the Salvation Army held an interesting service last night in the church at Delgado.

—Mr. Geo. A. Woodward, of this city, has recently dug on some land rented by him from Mr. E. T. Wade, in East Wilmington, a yam potato weighing three and a half pounds.

—The Board of Audit and Finance of the city will meet at 4 o'clock Friday afternoon, the regular meeting on Tuesday evening having been postponed on account of the lack of a quorum.

—President W. B. Cooper is advised that no committee from the National Guard has been appointed to select a permanent encampment site. He has written to Governor Glenn to ascertain the facts.

—A dispatch from Raleigh says: "James W. Woodburn, clerk in Seashore Hotel, Wrightsville, was here with his bride today en route for Norfolk. He and Mrs. Cora Council were married Monday at Marion, N. C."

—Announcement is made of the marriage of Mrs. Emma L. Burkheimer, widow of the late Edgar Burkheimer, and Mr. Ralph Kennedy, a son of Mr. and Mrs. Jas. N. Kennedy, both of this city. Mrs. Burkheimer resides at No. 607 Castle street.

—The directors of the Atlantic Coast Line Company, of Connecticut, have declared a quarterly dividend of 2 1-2 per cent. payable September 9. This is an increase of 1-2 per cent. over the previous rate, and places the stock on a 10 per cent. dividend basis.

—A traction engine drawing the well digging apparatus of Messrs. Lowry & Falkner, the artesian experts, created some interest by moving along under its own steam down street yesterday. The apparatus was built by Mr. Lowry at the Cape Fear Machine Works.

—Referring to notice in Star of the 6th. the stock allotted Jno. S. Armstrong in the Carolina Savings and Trust Co. was simply for the purpose of perfecting the organization. The stock in this savings bank is widely distributed, the largest holder only owning $500.

—Four unimportant cases were disposed of by the Mayor yesterday: Edward Ray, a negro vagrant, was told that the official plan of the city was on the order of a checker board and that it was his move. He moved. Robert Willie, drunk and down, and D. J. Blanchard, drunk, escaped with the cost. A white excursionist was let off without money and without price.

Successful Deer Hunt.

Ex-Mayor Truelove, Ex-Alderman Charlie Skipper, of the "Town of Myrtle," Chairman A. M. Chinniss, of the Brunswick Board of County Commissioners, and Referee Geo. H. Howell, of this city, went on a deer drive across the river yesterday. The "official" party was successful in bringing down two fine bucks and enjoying no end of fine sport. One of the bucks went to Mr. Chinniss and the other was brought down by Mr. Skipper.

Carolina Savings & Trust.

Depositors are reminded that the banking house of the Carolina Savings and Trust Company is in the Atlantic National Bank building at northwest corner of Front and Princess streets. A special meeting of the stockholders of the new bank will be held this morning for the purpose of electing four additional directors, increasing the Board to 15.

POLICE UNDER ARMS

Expected Trouble With Ugly Negroes Did Not Materialize Last Night

CASE OF YOUNG RIVENBARK

He Remains In Home in Defiance of Threats of Blacks—Guns Procured for Emergency—Offer of Military—All Quiet.

Although six extra policemen were assigned to duty in the district and guns were stacked at the police station, ready for instant use in case of an emergency, everything was quiet last night in the vicinity of the home of Lee Rivenbark, the young white man, to whom a mob of negroes threatened to do violence late Tuesday night as told of in these columns yesterday morning. Contrary to the advice of some of his friends, who desired no further publicity in connection with the unfortunate affair, young Rivenbark did not leave the city yesterday and said last night he had no intention of doing so.

Lieut. H. M. Chase, commanding the Wilmington Division of Naval Reserves, heard exaggerated reports of further threatened trouble early last night and telephoned to the police station that, if need be, he would hold his men in readiness to respond to the riot signal over the fire alarm system, but he was told that while every preparation was being made for an emergency, no further trouble was apprehended.

One of the police assigned to the extra duty in the neighborhood of the trouble the night before telephoned the police station early in the evening that, in his opinion, arrangements should be made to meet an emergency, but until this morning everything in the neighborhood was quiet.

Chief Williams took the precaution early in the night to provide the station house with shot guns and ammunition from the private property of the men, as a precautionary measure. He sent an officer around to the houses of several members of the force and secured eight or ten guns and these were loaded and put in readiness at the City Hall. In this connection the Star desires to call attention to the poor equipment with arms of the police department. The pistols used by the men are shabby affairs, for the most part, and would be practically useless in case of serious trouble. Some of the men have provided themselves with pistols of their own, but the weapons supplied by the city to members of the force are absolutely useless. It is short-sighted policy on the part of the Board of Audit and Finance to refuse an appropriation for better arms, as was recently done. The case in point is sufficient evidence of the truth of the above statement.

A number of white residents in the neighborhood of the trouble remained up last night to assist the police in suppressing any breach of the peace, but fortunately their services were not needed. About midnight some mischief-maker placed a big torpedo on the car track at Fourth and Nixon streets and as the last car for the night passed over, the explosive went off with a loud report causing some excitement, but it was soon over when the cause was ascertained. The motorman, conductor and the few passengers on the car were badly frightened at first, and naturally so, but the crowd collected, laughed and dispersed.

HELD-UP ON THE ROAD.

Young Mr. Dempsey Halted on Castle Haynes Road.

John Dempsey, 17 years old, a son of Mr. F. J. Dempsey, a leading truck grower of the county, living in the Acorn Branch section, was held up by two negroes on the Castle Haynes road, about four miles from the city, just before day yesterday morning as the young man was coming alone in a cart to the city, the early start being to enable him to reach the market with produce in time for the opening. The negroes ran out from each side of the road and commanded the young man to halt and throw up his hands. The cart was stopped and the negroes were approaching when a buggy meeting young Mr. Dempsey dashed up and the negroes took to their heels before committing any robbery. They ran down the road a short distance and scampered off in the woods, before the gentlemen in the buggy could be of any assistance to Mr. Dempsey in attempting a capture. The young man came on to the city and reported the matter to the authorities, but there is little hope of capturing the would-be highwaymen.

Will Repair the Bridge.

In response to vigorous steps taken by Mayor Waddell with officials of the Seaboard Air Line in regard to the unsafe bridge over the tracks of the company on North Fourth street, the Mayor yesterday afternoon received a telegram from the General Superintendent of the S. A. L., stating that the bridge would be repaired or rebuilt at once. The matter has probably not been called officially to the attention of the officials before and the superintendent was very prompt in reply to the demands of the Mayor.

McKinley Assassination.

How many people recall that yesterday was the fourth anniversary of the fatal shooting of President Wm. McKinley at the Buffalo Exposition? The attention of the Star was directed to the anniversary by Mr. James K. Collier, of this city, who at that time was on the art staff of the New York Herald. Mr. Collier has an interesting and very valuable collection of photographs of scenes and incidents of the assassination, collected by him in his professional capacity at the time and talks interestingly of the sad affair.

ATLANTIC TRUST & BANKING

Third Annual Meeting of Progressive Wilmington Institution Held Yesterday—Officers and Directors.

The third annual meeting of the stockholders of the Atlantic Trust and Banking Company was held yesterday in the banking house of the institution, on Princess street. Col. Walker Taylor was called to the chair to preside and Mr. Frank L. Huggins was requested to act as secretary. A committee to verify proxies announced that 358 of the 500 shares of stock were represented, whereupon the meeting was declared open for business.

When the minutes of the last annual meeting had been read and approved, President Matt J. Heyer offered his annual report which showed a very successful operation of the bank during the past year. The stockholders present congratulated him on the economic and able management of the institution.

The following were unanimously elected as Directors to serve for the ensuing year: B. H. J. Ahrens, J. G. L. Gieschen, Martin O'Brien, B. Solomon, C. W. Yates, C. J. Mitchell, B. O. Stone, L. B. Rogers, John H. Kuck, I. M. Bear and Matt J. Heyer. The only change in the directorate of the bank is the election of Messrs. C. J. Mitchell and B. O. Stone on the Board to succeed Messrs. R. R. Bellamy and D. McEachern resigned.

Immediately after the stockholders' meeting, the Directors met and elected the following officers for the ensuing year:

President—Matt J. Heyer.
Vice President—B. H. J. Ahrens.
Cashier—Milton Calder.
Secretary of the Board of Directors—L. B. Rogers.

The Atlantic Trust and Banking Company is one of Wilmington's strongest and most conservatively managed financial institutions. During the past year it gained $175,000 in deposits, declared six per cent. dividend and carried 14 per cent. to the surplus fund. None of the stock in the bank is for sale and it is accredited one of the best investments now on the market. President Heyer is one of Wilmington's most successful capitalists and public spirited citizens. His close personal attention is given to his banking interests and any enterprise with which he is connected is a safe business proposition.

COMING ACADEMY ATTACTIONS.

"Bad Beginning Makes Good Ending" —The List.

In opening the theatrical season here with the International Vaudeville Stars Tuesday night, the Academy management, unintentionally, of course, were no doubt proceeding upon the theory that "a bad beginning makes a good ending." Indeed, as much may be judged from the galaxy of bright attractions that are to follow this month.

On the 18th, Henry F. Willard & Co., are to present "Reuben in New York," an excruciatingly funny production, as may be judged by the title; on the 19th, Fields' big minstrels are coming for a formal opening of the theatrical season; on the 19th. Eugenie Blair is coming in Ibsen's great play, "A Doll's House," immediately followed by "A Bunch of Keys," on the 21st; "Human Hearts," on the 23rd, and Frank Deshon in the big musical comedy, "An Office Boy," the play written for Frank Daniels, on the 25th. On the 30th, Hall Caine's great production, "The Eternal City" will be given. Messrs. Cowan Bros. yesterday received the contract for the appearance of the Pauline Hall Opera Company, presenting "Dorcas," a high class musical production which has been secured for November.

ALBERT IVERSON RODGERS.

Young Man Held In Highest Esteem Is Dead.

The funeral of young Albert Iverson Rodgers, a popular employe in the A. C. L. Auditor's office, was conducted at 4 o'clock yesterday afternoon by the Rev. Geo. B. Webster, pastor of Bladen Street M. E. church, in the presence of many friends and the remains were tenderly laid to rest in Bellevue cemetery. The pall-bearers were Messrs. J. D. Robinson, F. L. Prower, W. F. Hatchel, R. P. Houston, B. H. Houston, Jr., and S. G. Nelms.

Young Rodgers was only 17 years of age and died Tuesday afternoon of typho-malarial fever. His death cast a gloom over the entire community, for everybody was drawn to him because of his exemplary habits and splendid qualities as a Christian young man. He was a member of the Y. M. C. A. and leaves besides many sorrowing friends two small brothers and one sister, Mrs. Ollie Tindall.

Capt. Holttum is Here.

Captain Holttum is here! This information is entirely gratuitous to everybody in the city who was not dead or asleep yesterday morning about 10:30 o'clock when the guns aboard the Captain's good ship Tolosa boomed forth a hearty salute as she passed up the water front to the Champion Compress to receive the first cargo of cotton this season from Messrs. Alexander Sprunt & Son. As soon as his ship was docked, the captain was soon ashore and shaking hands with his legions of friends in the city. Here's the "top of the morning" to the jolly Britisher and hoping that he will be a long time with us!

Position in Alabama.

Mr. W. Harry Stokley, a popular young Wilmingtonian who is employed as a bookkeeper in the Navassa Guano Company's offices in this city, has resigned to leave about Sept. 15th for Montgomery, Ala., where he has accepted a lucrative position with the Virginia-Carolina Chemical Co., in the offices there. He will be succeeded in the Navassa offices by Mr. Henry L. Nichols, now in the office of the auditor of freight receipts at the Atlantic Coast Line.

COAST LINE CHANGES

Several Appointments in Transportation Department Officially Announced Here

STILL OTHERS EXPECTED

Capt. W. H. Newell Becomes Superintendent of Transportation Here While District Superintendents are Moved Up.

Official announcement of several important changes in the transportation department of the Atlantic Coast Line Railroad Company was made yesterday from headquarters in this city. The changes are embodied in the following circular issued by General Superintendent A. W. Anderson:

Atlantic Coast Line Railroad Co.
Office of Gen'l Superintendent
First Division.
Wilmington, N. C., Sept. 6, 1905.
Circular No. B-5.

The following appointments will take effect September 10th, 1905:

Mr. W. H. Newell, Superintendent of Transportation, office at Wilmington, N. C.

Mr. O. H. Page, Superintendent, Fayetteville District, office at Rocky Mount, N. C.

Mr. G. D. Pugh, Superintendent, Charleston District, office at Charleston, S. C.

Mr. C. L. Porter, Superintendent, Columbia District, office at Florence, S. C.

A. W. ANDERSON,
General Superintendent.

Approved: W. N. ROYALL,
General Manager.

It is understood that the above changes will bring about some other changes in the matter of trainmasters and that Mr. J. F. Council will be sent to the Charleston district and Mr. M. L. Stover will be appointed in his place on the Wilmington district with headquarters here. Mr. Stover is now chief train dispatcher in the office at Wilmington.

The changes came with the resignation of Mr. J. C. Murchison as superintendent of the Fayetteville district some time ago, the resignation having ben in order that Mr. Murchison might re-engage in furniture manufacturing in Greensboro. It willl be seen from the circular that he is succeeded by Mr. Owen H. Page, who has been acting general superintendent of transportation for the first division with headquarters here, during the past year or more. Mr. Page will have his headquarters at Rocky Mount, N C.

The appointment of Capt. W. H. Newell to the position of Superintendent of Transportation, vice Mr. Page brings back to the city a former Wilmingtonian who is held in the highest esteem and who is a railroad man of undoubted ability.

Capt. G. Deems Pugh, who is transferred from Florence as superintendent of the Columbia district to the superintendency of the Charleston district, is another Wilmingtonian in whose promotion the people here feel an interest. He succeeds Capt. Newell, who comes to Wilmington.

Mr. C. L. Porter, trainmaster at Charleston, who is promoted to the superintendency of the Columbia district with headquarters at Florence, is also well and most favorably known in the city. Mr. Councill, of Wilmington, succeeds Mr. Porter as trainmaster at Charleston and Mr. Stover succeeds Mr. Councill here.

Still other changes in the transportation department are expected but as yet nothing has been officially announced here.

McCOWN CONTEMPT CASE.

"Take Me Back to Durham" Parting Injunction of a Suicide.

Special Star Telegram.

Raleigh, N. C., Sept. 6.—Everyone expected the Supreme Court would decide against McCown, in jail at Durham for assaulting Judge Ward. The court in an oral judgment sustains Judge Ward and McCown must serve his term. The decision seems to give universal satisfaction.

W. A. Barbee, of Durham, aged 35, who had been here since yesterday, drinking hard, committed suicide in his room at the Yarboro House this afternoon. He had bought new clothing here, possibly for a shroud, went to the hotel and secured a room; gave $160 to the clerk, returned to the room, stood in front of a mirror and blew out his brains. A note on his person said: "Take me back to Durham." The coroner found this and decided an inquest unnecessary. Barbee was a son of Justice G. A. Barbee, of Durham, and on account of his habits had been discharged from employment in Durham a few days ago.

(By Associated Press.)

Raleigh, N. C., September 6.—The Supreme Court to-day denied the application of Ex-Mayor McCown, of Durham, N. C., for a writ of habeas corpus and directed that he serve the term of thirty days in jail to which he was sentenced for cursing and striking Judge George Ward, of the Superior Court because the Judge refused to increase the sentence of a man who had killed McCown's brother-in-law.

MR. FRED BOLLES TO WED.

Former Young Wilmingtonian Will Claim Bride in Maryland.

Friends of Mr. Frederick D. Bolles, formerly of this city, will be interested to learn that he is to be married to Miss Mary Theresa Edelen, of Maryland, in Baltimore, September 20th.

Miss Edelen and Mr. Bolles first met at the Summer home of Gen. R. F. Hoke, at Lincolnton, N. C., four or five years ago. The couple will be at home after October 10th. at 40 Ashton Park, Newton Centre, Mass. Mr. Bolles represents the New York and Boston banking house of Messrs. Harvey Fisk & Sons in Maine and New Hampshire.

CAPT. WALTER CONEY DEAD

Native Wilmingtonian, Prominent in Business World, Died Suddenly Yesterday Morning in Georgia.

A telegram received in the city yesterday morning conveyed the sad news of the death of Capt. Walter Coney to many friends and a number of relatives in this city. Capt. Coney died suddenly of hemorrhage of the brain at his home in Savannah, Ga., where he was second vice-president of the Paterson-Downing Company and manager of the extensive naval store business of that corporation in the Georgia city. The news was received with sincere sorrow in Wilmington, Captain Coney being a native here and a resident of the city until 1885 when he removed to Charleston and a year later to Savannah, Ga. The funeral will take place in Savannah, Mr. W. R. Taylor, a nephew of the deceased having left last night to attend the services.

Capt. Coney married Miss Mary McLaurin, of Wilmington, a sister of Mrs. J. H. Taylor, Mr. L. W. McLaurin and Miss Katie B. McLaurin, of this city. The wife, four sons and two daughters survive him. The children are Col. W. E. Coney, a prominent member of the Georgia National Guard; Messrs. John, Wilbur M., and Neill M. Coney and Misses Nannie and Mellie Coney, all of Savannah, except Mr. Neill Coney, who recently left for Arizonia. During his residence in this city, Capt. Coney was of the firm of Lemmerman & Coney, owners of the steamer "William Nyce" and proprietors of an extensive lighterage business on the river. Capt. Coney was the eleventh captain of the Wilmington Light Infantry and took a lively interest in the affairs of that organization. He was also an enthusiastic member of the Carolina Yacht Club and owned the "Little Walter," which bore the championship flag at its masthead for several successive years. The flag on the W. L. I. armory in this city is at half mast in honor of Capt. Coney, who was universally beloved by the company. A notice of the death was also posted at the Chamber of Commerce, the Paterson-Downing Company being a member of the body and Capt. Coney being well known and highly esteemed in the business community here. Capt. Coney was between 50 and 60 years of age.

THE BUREAU OF STATISTICS.

While the Southern Cotton Growers' Association is in session in Asheville this week, it might not be out of place to take the sense of the cotton growers as to the value, if any, of the custom of the Government Bureau of Statistics to keep tab of the crops and make reports on the same weekly and monthly. If it is the desire to have these reports continued by the government the cotton growers had better begin to prepare for the fight against the Bureau to be made at the next session of Congress.

We refer to this matter because within the past few days at Washington there has been in circulation a report that Hon. James Wadsworth, of the House Committee on Agriculture, would at the next session make a vigorous effort to secure the abolition of the Bureau of Statistics in the Agricultural Department. This point of view was taken by Mr. Wadsworth some three years ago at the time when the figures of the Bureau were so sharply discredited by camparisons with the census figures. Mr. Wadsworth, however, was turned aside from his intent by the strenuous representations of Secretary Wilson and others and by the fact that the Census Bureau was crippled about the same time by the retirement of Governor Merriam. Through the exertion of powerful political influences in the Senate, the Bureau of Statistics, then only a division, was raised to the rank of a Bureau, and its appropriation was enlarged. It is claimed that the charge will now be made that the Bureau has been fairly treated, supplied with adequate funds and in every way supported, and that in spite of these favorable conditions the recent scandal has been allowed to hateh out. A Washington dispatch says:

"The abolition of the Bureau of Statistics, if it occurs, would probably mean simply that the work of preparing condition reports in some form would be given to the Weather Bureau. It has been reported in Washington that Mr. Moore, the head of the Weather Bureau, has been urging this scheme again, it having been a favorite idea of his some years ago when it was thwarted by the efforts of ex-Statistician John Hyde. The division of foreign crop reports would probably be transferred to the census, which has already succeeded in getting the work on the commercial movement of cotton turned over to it. In that case it is likely that all acreage reports would also be handed over to the census, and if Congress appropriated the money for it, it would be put on a census basis instead of a basis of estimate as at present."

Wall Street people already have on foot a formidable movement to do away with the crop report feature of the Bureau of Statistics. The exposure of the Holmes scandal in connection with the cotton reports, has doubtless upset the plans of some of the Wall Street speculators and when they find that they cannot use the Bureau reports to their own advantage they are in for abolishing it.

The custom of making crop reports was adopted for the benefit of agriculture. If it is a benefit it should be continued. If not, the cotton growers should join Wall street to have it discontinued.

However, if the government discontinues its crop statistics, private enterprise will go ahead and get the statistics. Wealthy brokers in Wall street or a syndicate of them could cover the grounds now used in making up the government estimates and statistics, and then the planters would be at the mercy of the private manipulators. We take it that if the world is bound to have the statistics the growers would rather risk the government than the private concerns and syndicates. The Bureau of Statistics may be purified, and if it is not, the planters wouldn't be any better off with their crop statistics in the hands of interested private parties.

THE SOUTH AND THE NEGRO

The following is taken from the editorial columns of our esteemed contemporary, the Chattanooga Times:

"J. N. Daniel the well known negro editor of this city, is engaged in an altogether commendable effort to found and put on a secure basis, a home for old and helpless negro women. Daniel has devoted himself unselfishly to the cause and has given his time and what money he could afford to its promotion. White citizens who may be interested in such a worthy charity will doubtless cheerfully contribute to the fund. Daniel is endorsed and approved by all who have had any dealings with him as worthy and responsible."

Here we have one of the leading papers of the South approving of a most worthy undertaking by the colored people of that city and it is no risk to predict that the white citizens of Chattanooga will do more for the erection of the old women's home than will the negroes themselves. In Wilmington, Mr. W. H. Sprunt, out of his own beneficence, erected a handsome and commodious hospital for the colored people, and the Chattanooga and Wilmington incidents are not exceptions but the rule in the South when it comes to dealing with the negro.

CURRENT COMMENT.

—The dove of peace lit upon the big stick and ate out of Teddy's hand. This is hypnotism.—Atlanta Constitution.

—The proposition to have Senators Burton and Michell pair will not do. They belong to the same party, and are too much alike.—Washington Post.

—"The new Anglo-Japanese alliance, it is believed, will be a strong factor in preserving the peace of the world." If America were added to it it could stand against all comers.—Norfolk Public Ledger.

—A servant girl in New York has drawn $80,000 for refusing to testify concerning the scandals in the home of her employers. That woman ought to be on the staff of the "Fads and Fancies" publication. — Washington Post.

—Atlanta, which is always strenuous, telgraphs the President, through its chamber of commerce: "Your maternal State congratulates you on your splendid service to humanity in bringing the warring nations together in peace. Long live the first citizen of the world." There is always danger of slopping over on such occasions as this.—Charlotte Observer.

—In the arrest of the captain of an Atlantic steamer in New York the other day the fact was disclosed that the United States government was determined immigrants should arrive in the country after voyages fairly comfortable. An inspector had made the trip in the steerage of this vessel, and found the quarters about as comfortable as those in a cattle car. The food was execrable and the general conditions miserable beyond thinking. The incident also reveals the intention of the government to force the steamship companies to live up to their promises. —Cleveland Leader.

—Twenty of the Episcopal clergymen of Kansas, under the lead of their bishop, have signed a declaration that they "will not, under any circumstances, marry a divorced person within the life time of the other party." Such a statement with reasonable modifications, signed by the clergy of all the various religious denominations of the country would speedily bring out a reform of the divorce evil; and this may lead to the inference that the religious denominations are therefore, negatively at least, responsible for the scandalous abuses of the divorce privileges that disgrace the times and threaten the order and peace of society.—Chattanooga Times.

—Can any one give a good reason why the magistrates should not be required to attend the Superior Court at least once a year and be instructed in their duties by the presiding judge? The educational value of such a policy would be great, as we see it. Magistrates need instruction as much as the grand jury. The next Legislature should see to it that the learned men who ride our districts have a chance to talk to the squires face to face and correct the notions some of them have about their authority to settle penitentiary offenses, sell a blank deed worth five cents for $2.50 and fill it in for nothing, to beat the State and county out of the license tax, etc. —Webster's Weekly.

TWINKLINGS.

—Husband—Well, I must say that all fools are not dead yet! Wife (affectionately)—I'm glad of it, dear, I never look well in black!—Illustrated Bits.

—"I'm afraid I ain't really in society after all," moaned the multi-millionaire. "Why not?" "Nobody has attempted to blackmail me yet."—Louisville Courier-Journal.

—She—Where did you pass your vacation? He—At the seashore. She—And did you leave your heart behind you when you returned to town? He—No, but I left my trunk.—Chicago News.

—"Mamma," said Harry, "I wish you would make Mabel quit punching me with her elbows. I'm afraid she's got it." "Got what, dear?" asked his mother. "The bargain-counter habit," answered the small observer.—Chicago News.

—"To think," grumbled the struggling author, "that I can't get any one to publish by novel after all the pains I took with it." "But," replied the critic, "if it were published, think of all the pains you'd give."—Philadelphia Ledger.

—"I like to go automobiling with Jack Hefty." "Why with Jack especially?" "Because, he's so large and plump. I know that if I am thrown out and can contrive to land on Jack there is little danger of my being hurt."—Cleveland Plain Dealer.

"Papa says he is afraid the money you inherited from your father is tainted." "Does he? And what am I going to do about it?" "Well, I suggested to papa that if he'd let me marry you I'd soon put it where the taint couldn't affect you."—Cleveland Plain Dealer.

—Mr. Stalate—Don't those trolley cars make an awful racket when they go by the door? Miss Bord—Yes, and they pass at such inopportune moments. It was on account of them that you didn't hear the clock the last two times it struck.—Philadelphia Ledger.

—"I suppose that old chap with the long white whiskers over there is one of your old settlers, isn't he?" said the grocery drummer. "I reckon he's what yew might call a old resident," rejoined the village merchant, "but he ain't no old settler. He's been a'owin' me for nigh onto thirty years."—Chicago News.

THE COTTON MARKET.

New York, Sept. 6.—The cotton market was nervous and irregular but recovered from an early decline and closed at a net advance of 2@4 points. Sales were estimated at 350,000 bales. The opening was at an advance of 2 @5 points on Fall and Winter months which were influenced by somewhat better cables than expected, while the Spring months were 2@3 points lower under a continuance of the liquidation inspired by yesterday's crop report and during the early session the whole list ruled weak with prices selling off to the lowest point of yesterday. At the net decline of 6@9 points, demand improved, owing to profit-taking by smaller shorts and around midday, the market worked some 5 or 6 points over last night's finals. There was some irregularity later but prices did not go much below yesterday's closing and in the late trading the market was influenced by bullish reports from the convention of Southern growers at Asheville. The close was steady and within 2 or 3 points of the best. Early reports from Asheville stated that sentiment amonk the delegates favored 10 cent as the minimum selling price of the new crop, but later advices reported that the price would probably be placed nearer eleven than 10 cents.

PLAYS AND PLAYERS.

Charles Walcott will be seen this season with Miss Maude Adams in her special season through the south in "The Little Minister."

A dramatization of Tolstoi's "The Kreutzer Sonata" is being prepared for Miss Blanche Walsh and will have its first presentation in December at McVicker's theater, Chicago.

Miss Sibyl Carlisle will join William Gillette's company again as his leading woman in "The Admirable Crichton." She has been appearing with Sir Charles Wyndham and Mary Moore in London.

Carlotta Neilson, the young actress who made a success in "Hedda Gabler" and later in "Love's Pilgrimage" last season, has been engaged by Charles Frohman to appear with William Faversham.

"A Romance of Athlone," which Chauncey Alcott revives this season, treats exclusively of life among the Irish gentry. There are no peasants in the play, and the comic element is confined to two servant characters.

George M. Cohan's starring tour will commence early in October, and his New York engagement will be inaugurated Oct. 31 at the New York theater, where his newest musical play, "Little Johnny Jones," should run for some time.

SHORT STORIES.

A newly discovered cotton tree in Mexico promises to rival in production the cotton plant of the United States.

There are 44,000 hotels in the United States, representing an invested capital of over $6,000,000,000. These establishments employ 3,500,000 persons.

The Benedict Arnold house, a Revolutionary war landmark at New Haven, Conn., has been torn down. The front doors and some of the colonial windows have been given to the New Haven Colony Historical society for preservation.

A man who has made a study of the subject reports that the average family will spend $90 a year for bread. They will spend more for potatoes, several times as much for vegetables, more than this for fruit and about $150 for meat.

The American cow is an institution of huge dimensions. She produces annually 8,000,000,000 gallons of milk, 1,500,000,000 pounds of butter and 300,000,000 pounds of cheese, not to mention hides, leather, glue, hair, horns and other byproducts. Her total dairy crop is worth over $500,000,000 a year.

EDITORIAL FLINGS.

The czar has had reason to walk the floor at night for several months past, so he won't mind it so much now.—Chicago Record-Herald.

A court decision was recently handed down to the effect that a woman does not have to support her husband. But a number of them will continue doing it just the same.—Pittsfield Eagle.

Carroll D. Wright says that our wages have been increased 18.8 per cent. While we have every respect for Mr. Wright's opinions, we would prefer to have the cashier give us that kind of information.—Washington Post.

Secretary Hay's son-in-law will vote for Parker. Uncle Gassaway will join the secretary in the belief that sons-in-law ought at least to stay at home on election day if they can't stand by the family.—Chicago Record-Herald.

A Paris dispatch declares the kaiser will end the Russo-Japanese war by his mediation. The kaiser setting forth toward the rising sun with the dove of peace on his finger would make a fine subject for a historical painting.—Chicago Post.

MODES OF THE MOMENT.

Fringed bias taffeta ruffles are made into charming flat boas for cool evenings.

A fancy has displayed itself for capes and three-quarter coats in a loud check tweed.

Whaleboned petticoats are common enough. From these to crinoline proper is not a far cry.

There have been introduced of late from Victorian times the low shoes that button over at the sides.

Old fashioned lavender silk, which brides of a half century ago were wont to revel in, again comes fashionably forward.

Tartan tweeds are quite the latest for autumn tailor mades in blue and green, brown and yellow and quiet mixtures.

White, putty color and pale gray cloths make the smartest coats, and white cloth with a faint tinge of palest blue, known as zinc white, is extraordinarily fashionable.—Brooklyn Eagle.

POINTED PARAGRAPHS.

There are too many people on a dead center.

Show some people real diamonds and they will insist they are glass.

Faith, hope and charity should crowd up closer and make room for gratitude.

If a man lends money to his kin his next more fatal blunder is to let his wife know of it.

If a woman has faith in her husband it keeps the wrinkles off her face longer and also off his.

It is perhaps one of the most comforting things in life that a man's idea of what constitutes success changes as he grows older.

It is so much easier to say to the person with a grievance, "I wouldn't stand it if I were you," than to suggest that perhaps he is complaining too much.—Atchison Globe.

A Little Care Will Save Many Wilmington Readers Future Trouble.

Watch the kidney secretions.

See that they have the amber hue of health;

The discharge not excessive or infrequent;

Contain no "brick-dust like" sediment.

Doan's Kidney Pills will do this for you.

They watch the kidneys and cure them when they're sick.

Wilmington testimony proves it.

P. C. LeMoyne, contractor, of 223 North Seventh streets, says: "I did not know that the trouble with my back was caused by my kidneys not acting properly, although I noticed the secretions from those organs were dark and very irregular, sometimes free and at other times scanty. I saw Doan's Kidney Pills advertised and went to Bellamy's drug store and got a box. I was surprised at the result, for I have not had backache since I used them."

Special Trial Offer
THE MORNING STAR
At Reduced Rates
To New Subscribers

For the next sixty days will mail THE MORNING STAR to subscribers outside the city at the following reduced rates:

FOR ONE YEAR $4.00
FOR SIX MONTHS $2.00

Positively, no subscription will be taken at the reduced rates for a period less than six months. For one month the price will be, as heretofore, $1.25 for three months; or, fifty cents for one month.

This offer, as will be noted, is for a limited period only, and is made for the purpose of giving those who appreciate the value of a daily newspaper an opportunity to read the STAR for six months, or more, at a cost of about one and a quarter cents per copy, and then determine whether or not they will continue their subscription at the regular price.

No name will be entered on our books under this offer unless the order is accompanied with the cash.

While this proposition is made primarily to secure new subscribers, old subscribers outside the city may avail themselves of its advantages at the reduced rate provided they pay all arrearages and for not less than six months in advance.

On account of the heavy expense attached to our city circulation department this offer does not apply to city subscribers.

Sample copies mailed free to any address.

Note the conditions of this offer carefully to avoid mistakes.

SPIRITS TURPENTINE.

—Daniel petty died at Greensboro suddenly Sunday night. He was the father-in-law of District Attorney Holton, of Winston.

—Thomas Hill, of Newbern, well-known as "Railroad Bill," a colored brakeman on the Atlantic and North Carolina Railroad, was fatally injured while coupling cars on Monday at Dover. He was caught between the bumpers and horribly mangled.

—Lightning struck the barn of Mr. W. H. White, six miles south of Pittsboro, Monday night and burned it to the ground, together with two good mules, a lot of grain, forage and farming utensils. Exactly nine years ago the barn on this lot was burned under similar circumstances.

—The death of one of Goldsboro's most venerable citizens, Mr. B. B. Raiford, occurred at his home there Saturday evening. He was in the 82nd year of his age. The funeral was held from the home Sunday afternoon at 4 o'clock, Rev. W. F. Fry, pastor of the First Baptist church, of which he was a member, officiating.

—W. T. Cayho, of Newbern, president of the Pamlico Oriental and Western Railroad, referring to the report that the Kleybatte syndicate in New York had secured control of his road in connection with the Suffolk and Carolina, said he knew nothing of the alleged deal and did not believe there was any truth in the report.

—The directors of the Rowland Cotton Ware House Company elected officers Tuesday, as follows: L. R. Hamer, president; W. H. McLellan, vice president; W. F. Bristow, secretary and treasurer. Stock has been subscribed to the amount of $2,200 and work will begin at once. The building will be located near the Rowland Planing Mills plant.

—Another one of the North Carolina Duke family, James Duke is suing his wife for divorce on statutory grounds involving her relations with Capt. Frank T. Huntoon, a well known New Yorker. These Dukes were married at Camden, N. J., Nov. 29, 1904, the bride being Mrs. Lillian N. McCreedy. She was wealthy and so was Duke. The divorce proceedings are stirring up the society set at Trenton, N. J.

—More than 200 witnesses from all parts of that revenue district are in Greensboro, summoned to appear before the grand jury of the special Federal Court now in session. The Court is not for trial of causes, but for special grand jury investigation of alleged frauds against the government on the part of revenue officials and liquor distillers. Detectives from the Department of Justice have been working in the district three months, and sensational developments are expected.

—Will Allen, a colored boy, was shot Saturday afternoon and killed at Chapel Hill by Johnson Merritt, Jr. both were colored boys, about the same age, sixteen or seventeen years, and the killing occurred at the home of the Merritt boy, who fired the shot. Johnson Merritt, Jr., and Will Allen had some trouble in the street Saturday and blows were passed. Later they went to the home of Johnson Merritt's father. While there the shooting took place.

—Greenville Reflector: C. W. Harvey, secretary of the tobacco board of trade, has furnished us with the figures showing that the sales on the Greenville market for the month of August were 1,645,439 pounds, at an average price of $6.57 per hundred pounds. As compared with last year a gain of over three hundred per cent in pounds is shown, the sales in August, 1904, being 465,232 pounds at an average price of $6.92 per one hundred pounds. It will be noticed that the average price this year is a little lower than last, but this due to the fact that the crop this year is very common in quality. Prices on grades are higher this year than last, but so much common brings down the average.

—Mr. and Mrs. Newton Arrowwood, of the Reems Creek section of Buncombe county, were in Asheville last week for the purpose of having their children's pictures taken. Mr. and Mrs. Arrowwood are the proud possessors of five hopefuls and they claim the distinction of being the only couple in that section of the State having triplets and twins. The family attracted no little attention and interest in the city. The triplets are a little more than three years old; all three exactly the same size—weight and height—and dressed similarly. They are sturdy youngsters with bright and intelligent faces. They manifested a keen interest in all which they saw and heard. The little ones—the twins—are also strong and healthy and bid fair in the days to come to add credit and strength to the "State of Buncombe." It is said that one of the photos bearing the smiling faces of the triplets and twins is to be sent to President Roosevelt to demonstrate to the chief executive that there is no such thing as "race suicide" in this neck o' woods.

—Raleigh Post, September 5: Two men, one white and one colored, are dead, another colored man is bruised, a mule is dead and a buggy is smashed almost to kindling wood as a result of an accident at Whitaker's Crossing some two miles northeast of this city, where the Louisville road crosses the Seaboard Air Line railroad tracks, close to the junction with the Raleigh and Pamlico Sound Railway, yesterday morning about a quarter to ten o'clock. The white man is John Nipper, who lived near Lassiter's Saw Mill in Barton's Creek township, and the dead colored man is Jim Brooks of Barton's Creek. The other negro is David Clay, also of Barton's Creek. As they neared the railroad crossing, they heard a locomotive blow, but could not see the train on account of some clay banks overgrown with high weeds and grass to the east of the road. The train was running in toward Raleigh. The mule took fright at the whistle and started to run. Clay being taken by surprise and unable to hold him. The locomotive and three log cars passed just in front of the affrighted mule, and then just as a flat car came by the frenzied animal reared up and tried to jump over the flat car or between the cars. The train was moving fast and the mule and buggy were dragged for a distant, and then hurled off with terrific force.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. THE PAPER.

When pa picks up the paper
He reads the war news through;
He looks up things in politics
And skims the trade review.
But ma has different methods—
She reads the weather guess;
She lingers o'er the marriages
And articles on dress.

When pa picks up the paper,
He reads it bit by bit,
And when at last he puts it down
He's really through with it.
But ma has different methods—
She'll read some here and there
And drop the paper. After while
She starts again somewhere.

When pa picks up the paper
He reads of baseball folks,
But ma goes through the births and deaths,
And puzzles o'er the jokes.
She reads the editorials—
And tries to grasp them, too—
Of course she reads the social page,
As all good women do.

The paper keeps pa posted
On subjects of the day;
The paper keeps ma posted, too,
In her erratic way.
The sheet must be progressive
To satisfy my dad,
But ma is quite contented if
She finds a bargain ad.

—Cleveland Leader.

Sarcasm.

"I'd like a necktie about the color of your pretty eyes, don't ye know."

"I'm sorry, but we're all out of boys' sizes."—New York Evening Journal.

Her Confession.

She had heard the Bible story of the world when all was young; of Adam and Eve and the apple, and the serpent's siren tongue; of the wrath that swift descended; of the joys we must forego, and of that fair, lost Eden whose peace we might never know! She looked around the nursery, and her face that had been so glad lost all its bonny radiance, and wistful grew—and sad. She looked at her dolls and dishes, at the books she loved the best, at the doll that was blind and broken, and dearer than all the rest. "Poor woman!" The drooping lashes did wet and sweet uncurl. "I'm 'mostest sorry because her—was never a little girl!"—Philadelphia Press.

Not a Loan.

A little girl went timidly into a Fifth street store the other morning and asked the clerk how many shoestrings she could get for 5 cents.

"How long do you want them?" he asked.

"I want them to keep," was her answer in a tone of slight surprise.—Cincinnati Commercial Tribune.

Poor Memories.

"I may be forgetful, ma," said Tommy, looking up from his book, "but I ain't as forgetful as sailors are."

"How do you mean?" asked his mother.

"Why, they can never remember the weight of their anchor. They have to weigh it every time they leave port."—Philadelphia Ledger.

Good as Her Word.

Esmeralda—She used to say that if she ever married a man it would be because she wanted to make him miserable, yet she married that young Frizzletop after she had known him only a week.

Gwendolen—Yes. It seems to have been a case of hate at first sight.—Chicago Tribune.

Perfidy.

She—Jack played an awfully heartless trick on Flossie.

He—How's that?

She—Why, they were engaged, you know, and last night at the bal masque Jack made up so that Flossie didn't know him. He proposed and was accepted again!—Puck.

Our Social Distinctions.

"But," said the foreigner, "you have nothing here to exhibit your social distinctions. You all herd together everywhere. Your upper and lower classes are on the same footing."

"You're mistaken. We have sanitariums and lunatic asylums."—Chicago Record-Herald.

Harmony.

Friend—And suppose there is a matrimonial deadlock?

The Bride—Why, matrimonial deadlocks are unconstitutional. In case of a tie I cast the deciding vote, and George just makes it unanimous.—New York Press.

A Poser.

"It is getting to be a problem with me," said the noisy politician, "how to keep the wolf from the door."

"Stand on the steps and make one of your stump speeches when you see him coming."—Detroit Free Press.

Similarity.

"That defeated racing auto over there reminds me of good money."

"That's an odd comparison. Why does it remind you of good money?"

"Because everybody can pass it."—Cleveland Plain Dealer.

Like Finding Money.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for Consumption, Coughs and Colds." Greatest sale of any cough or lung medicine in the world. At R. R. Bellamy drug store; 50c and $1.00; guaranteed. Trial bottle free.

Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." R. R. Bellamy, druggist, sells and guarantees them, at 50c a bottle. **

IT IS SIMPLY A MATTER OF INTELLIGENCE.

Those who know good quality and appreciate good value can see the wisdom of supplying their needs in drugs or toilet articles here. Prices a little bit lower than elsewhere make a great big difference to those who wish to make their money go the farthest.

WILMINGTON, N. C.

Thursday Morning, Sept. 7.

THE COTTON GROWERS' MEETING AT ASHEVILLE

Committee Appointed to Recommend Minimum Price at What Cotton Should Be Sold This Season.

By Wire to The Morning Star.

Asheville, N. C., Sept. 6.—The establishing of a minimum price for the coming cotton crop, the compiling of accurate statistics direct from the grower, the enlargement of the associations scope, and the discussion of present conditions in the cotton world are set down as the primary objects of the convention of the Southern Cotton Growers' Association now in session here.

The question as to whether the sessions of the convention should be open or held behind closed doors was revived this afternoon, but after some discussion it was resolved that executive meetings should be held either before or after the open sessions.

The all absorbing topic tonight is the estimate of a minimum price for the coming cotton crop and there is strong feeling among the delegates that the Southland's staple will be marketed at not less than 11 cents, and a possibility of the price going to 12 cents and upwards. The committee having this important work in charge, which was appointed this morning, will report at tomorrow morning's session.

Tonight there exists two distinct factions, one insisting on the 11 cent minimum, the other holding out for 12. The latter claim that figured on the basis of last year's crop of 14,000,000 bales at 10 cents, 12 1-2 cents should be the minimum for this year's crop.

The Associated Press correspondent learned tonight on reliable authority that a number of the delegates would hold out for 12 cent cotton.

The report of the minimum price committee is awaited with intense interest which was heightened when it was learned that Liverpool cables were busy asking for information.

Morning Session.

The Southern Cotton Growers' Association convened here. The opening session was devoted to the appointment of committees, among them one to fix the minimum price at which the farmer should sell his cotton this year. This committee will submit its report tomorrow. The committee having in charge the fixing of the minimum price of the coming cotton crop is as follows: Brooks, of Alabama; Love, of Arkansas; Miller, of Georgia; Maxwell, of Louisiana; Witherspoon, of Mississippi; Allison, of North Carolina; Smith, of South Carolina; Chairman Davis, of Tennessee; Hickey, of Texas, and Erwin, of Oklahoma.

A committee also was appointed to compile an estimate of last year's cotton crop. The committee consists of J. A. Brown, of North Carolina; J. C. Martin, of Mississippi and W. F. Peake, of Georgia. An auxiliary committee which will report statistics to the estimating committee will also be appointed and will consist of one delegate from each of the fourteen cotton growing States. It was the sense of the meeting today that this crop report and the determining of the minimum price are the principal subjects before the convention.

A suggestion made by J. C. Martin that the constitution be revised so as to admit of the enlargement of the association's ecope resulted in the appointment of the following committee to frame resolutions: E. D. Smith, of South Carolina; J. L. Hickey, of Texas, and S. Witherspoon, of Mississippi.

Night Session.

Contrary to expectations tonight's session was productive of no important feature, the entire evening being devoted to the discussion of various resolutions under consideration. The meeting being called to order by the president proceeded at once with the discussion of resolutions passed by the Master Cotton Spinners of Great Britain on June 5 at the international congress of Master Cotton Spinners. These resolutions deal with the dampening of cotton and unsatisfactory methods of bailing. On the motion of J. A. Brown, of North Carolina, they were referred to the committee on resolutions.

A. L. Brook, of Alabama, read a letter from Sir William Tomlinson, a member of the British Parliament, in which he stated that the United States has reached its limit of cotton production and would soon need all that it produced. Sir William also stated the present supply was 3,000,000 bales short of the demand, and the deficiency was growing at the rate of 400,000 bales a year. He favored the creation of a commission to take steps looking to increased production. There was no definite action taken in connection with the Tomlinson, the sentiment of the convention seemig to be against the recommendations.

After a lengthy discussion in which most of the delegates took part resolutions were adopted fixing the uniform "tare" bales (bagging and ties) at 30 pounds per bale, this ruling to apply to all States.

The establishment of a newspaper as an official organ for the cotton association as a question which was carried over from the Memphis meeting, came up for discussion. Owing to the absence of three members of the committee having the matter in charge Mr. Moody, of Alabama, said he was unwilling to report. There appeared to be a decided sentiment against the establishment of such a paper which was emphasized when A. L. Brook took the floor and spoke for an hour and a half against the proposition. Mr. Brooks said there was no necessity for cotton growers to have an organ as the press of the South was doing all in its power to advance the interests of the Southern Cotton Growers' Association. At the conclusion of Mr. Brooks' speech, a motion to adjourn till 10 o'clock tomorrow morning was carried.

A claim against the estate of the late Ellen J. McKee amounting to $5,520 for medical services from January 2nd to May 3rd, 1905, was filed in the probate court at St. Louis yesterday by Dr. W. E. Fischel. Among the items of the claim is a charge of $5,000 for ten days service during the last illness of Miss McKee, when Dr. Fischel accompanied her from St. Louis to Asheville, N. C., where she died. Miss McKee left an estate worth several million dollars. The hearing is set for September 14th.

MAD JAPANESE SHEDDING BLOOD

Populace Incensed at Government for Making Humiliating Peace Concessions

BLOODY RIOTING AT TOKIO

Two Killed and Five Hundred Wounded on Tuesday—Several Defeats for Russians on Eve of Peace Treaty.

By Wire to The Morning Star.

Tokio, September 3.—2 P. M.—(Delayed in transmission)—Under a vigorous defense by the conservative journals supporting the government and a fuller and better appreciation of the situation confronting the country, public sentiment is showing some evidence of reaction. The argument that it is impossible for Japan to continue the bloody war merely for the purpose of securing indemnity is proving effective in allaying dissatisfaction. It is believed that when the government is free to explain fully the conditions of the settlement and the logic appertaining to them, the reaction of sentiment will largely increase.

The entire nation is keenly disappointed at the outcome. Nowhere throughout the empire has there been a step taken towards the celebration of the conclusion of peace. The radicals continue their campaign against the government demanding the punishment of those responsible for the compromise. The forthcoming diet is certain to be turbulent and it is predicted that the Katsura government will be forced from office. The declines in the market and the unsatisfactory crop conditions, coupled naturally, with the heavy obligations of the government, have created a fear in some quarters that a financial depression and unsatisfactory business conditions are impending. A prominent banker said today to the Associated Press correspondent that the Tokio exchange was an inaccurate barometer of real conditions, as lately the exchange transactions have been largely speculative. The August settlement was the largest in the history of the exchange. The recent decline, he said, was the result of conditions within the exchange and not a correct reflection of general conditions.

Demand Resignation of Government.

Tokio, Sept. 5.—(Delayed in transmission).—The first turbulence attendant on the popular anger over the terms of peace arranged with Russia, took place today. A mass meeting to protest against the action of the government was called to take place at Hibiya Park, but the Metropolitan police closed the gates and attempted to prevent the assemblage of the people. The municipality protested against the action of the police and finally the gates were thrown open and a large crowd gathered and voted in favor of resolutions declaring the the nation humiliated and denouncing the terms upon which the treaty of peace was arraigned. The crowd was serious in its conduct, rather than angry, and the police handled it discreetly. The gathering eventually dispersed in an orderly manner.

Later on, however, a crowd attempted to head a meeting in the Shintomi theatre and the police dispersed it. A portion of the crowd then proceeded to the office of the Kokumin Shinbun, the government organ, and began hooting. Three employes of the paper armed themselves with swords, appeared at the door of the building and checked the attack and the police again dispersed the crowd. It was thought that the trouble had passed when suddenly a portion of the crowd made a rush at the building, hurled stones and damaged some of the machinery.

Several persons were injured during the attack, but the police eventually cleared the streets of the crowd and arrested a number of the rioters. The disorder is not general and the situation is not serious. Similar meetings have been held at Osaka and Nagoya which in round terms denounced the government and asked them to resign.

Two Killed in a Riot.

Tokio, September 6.—10 A. M.—Rioting broke out here Tuesday night in connection with the dissatisfaction over the results of the peace settlement. There were several clashes with the police and it is estimated that two were killed and 500 wounded. The rioting ceased at midnight. Police stations were the only property destroyed.

Severe Battle on Sakhalin Island.

Tokio, September 2.—Noon.—(Delayed in transmission.) An official report announces the complete and crushing defeat of the remnant of the Russian forces after five hours severe fighting at Naibutu, on the west coast of the Island of Sakhalin. The Russians killed numbered 130. The casualties of the Japanese were slight.

The Japanese defeated the Russians in a series of sharp engagements in northern Korea on September 1st.

Fighting in Manchuria and Korea.

St. Petersburg, September 6.—Telegraphing to Emperor Nicholas under date of September 5th, General Linevitch reported that the Japanese September 4th started to advance along the Mandarin road and commenced constructing entrenchments, but retired after meeting the Russian artillery fire. The General also repored an offensive movement by several battalions of Japanes accompanied by cavalry and artillery in north Korea September 3rd, but the result was not announced in time to be sent off in the dispatch.

VIRGINIAN KILLED BY BURGLAR.

Prominent Tobacconist Shot at Brother's Home in Martinsville.

By Wire to The Morning Star.

Danville, Va., September 6.—John D. Spencer a prominent tobacconist who was shot by a burglar at the home of his brother, J. H. Spencer, at Martinsville, Va., several weeks ago, died at the Johns Hospkins Hospital. in Baltimore to-day, as a result of the wound. The bullet slightly fractured a bone of the neck, producing an abscess. An operation was performed to relieve the pressure, but blood poison set in and the patient died. The assassin has not been captured although large rewards have been offered. A couple of negroes who were arrested as suspects could not be identified. Spencer is survived by his wife and several small children. He was a member of the prominent Spencer family of Henry county, who have been identified with the manufacture of tobacco for many years.

REFRIGERATOR TRAFFIC UNDER INVESTIGATION

Atlantic Coast Line and Other Railways Before Inter-State Commerce Commission at Washington.

Washington, September 6.—The Southern Railway, the Atlantic Coast Line, the Central of Georgia, the Atchison, Topeka and Santa Fe, and the Pennsylvania have filed their answers to the inquiry of the Inter-State Commerce Commission concerning relations between refrigerator lines and railroads. All except the last two mentioned declare that they are in no way responsible for the charges by the Armour Car Lines.

The Southern Railway admits that the charges by the Armour Car Lines for the refrigeration of fruit and vegetables are as stated in the order of the Inter-State Commerce Commission and that the refrigeration charges are in detail set forth in refrigeration tariffs or circulars, copies of which from time to time have been furnished by the Armour Lines. The road says the tariffs have been freely distributed for the convenience of the shippers so as to acquaint them with the charges made by the refrigerator lines. Responsibility for the charges made by the Armour Lines is denied by the Southern Railway which says that the rates quoted by it to the shippers of fruit, vegetables and berries from points in the States of Georgia, South Carolina and North Carolina to New York and other Northern and Western markets do not include the cost of refrigeration and its tariffs specifically provide that its rates as published do not include cost of refrigeration. The respondent avers that this is understood by shippers and that they make a separate, distinct and independent contract with the Armour Line's refrigeration service to which the railway is in no way a party beyond the collection of the charges for the refrigerator lines. The railway says it pays three quarters of a cent a mile to the Armour Lines for the use of its refrigerator cars whether they are loaded or empty. The charges of the refrigerator lines are said by the respondent to be just and reasonable and it is denied that the road, acting through the Armour Car Lines or otherwise, has been or is collecting refrigeration charges at a lower rate from some shippers than from others.

The reply of the Atlantic Coast Line railway enters into the same general denials of responsibility for the Armour Car Line's charges, as has been made by the Southern Railway Company. The Atlantic Coast Line, however, did, at the request of the East Carolina Truck and Fruit Growers' Association, make a contract with the Armour Car Line, under the descriptive name of the "Fruit Growers' Express," under which the refrigerator line was obligated to charge rates not to exceed the respondent's tariffs effective April 1, 1902 and May 1, 1902.

The Central of Georgia railway has made a reply which in its general allegations, is identical with that of the Southern Railway.

DR. DAVID R. SALMON RESIGNS.

Did Printing for Bureau of Which He Was Chief.

By Wire to The Morning Star.

Washington, Sept. 6.—Dr. David E. Salmon, chief of the bureau of animal industry of the Agricultural Department, has tendered his resignation and it has been accepted to take effect on October 1.

The resignation was announced by Secretary Wilson at noon today but he declined to state whether the severance is due to the charges filed recently against Dr. Salmon. These charges related to the connection which Dr. Salmon had with George E. Howard, in the printing business and which later resulted in the organization of the Howard Label Company which holds the contract for supplying meat inspection tags to the government. The relations of Dr. Salmon and Mr. Howard were investigated by Solicitor McCabe of the Department of Agriculture and the doctor was exonerated, it having been shown that he withdrew from the company soon after the first contract was received from the government. Charges were preferred against Dr. Salmon also in connection with the meat inspection service. He was exonerated also on these charges, but the report was not accepted as satisfactory by the packing concerns whose applications for meat inspection had been denied.

While the announcement was made that the resignation was purely voluntary there is a well authenticated rumor that President Roosevelt was not satisfied with the conditions shown by the investigation.

RIVAL RAILROAD ENTERPRISES.

The Southern Making Strenuous Fight Over Mountain Passes.

By Wire to The Morning Star.

Knoxville, Tenn., Sept. 6.—Developments here today indicate that the Southern Railway anticipates an effort by the South and Western railroad to checkmate it in its efforts to build a road through mountain passes east of Johnson City, Tenn., 110 miles above Knoxville. A railroad contractor's outfit and a carload of laborers left here early today on a special train for a point near Johnson City and information from there states that the work of constructing the Southern's extension from Johnson City to Embreville, Tenn., will begin tomorrow. It is believed that the two railroads are rivals for the possession of certain valuable rights of way in difficult mountain passes.

THE PESTILENCE IN SOUTHWEST

New Orleans to Date Has Had 2,142 Cases of Yellow Fever

DEATH ROLL HAS BEEN 298

New Cases in Several Mississippi Towns—Pensacola Has Another Case and a Sensation—Atlanta's Quarantine Trouble.

By Wire to The Morning Star.

New Orleans, September 6.—The following is the official report of the yellow fever situation in New Orleans up to 6 P. M. to-day:

New cases to-day, 31; total cases to date, 2,142.

Deaths to-day, 4; total deaths to date, 298.

New foci. 6.

Cases under treatment, 317.

Cases discharged, 1,527.

There was no special feature in the fever situation to-day beyond small number of cases reported and the few deaths. A heavy rain fell this afternoon, following ten days of similar weather. This, however, has not increased the number of cases, nor the cortality, a fact which speaks well for the efficient work of the marine hospital surgeons.

There has been some demand here for a quarantine of the city against the country on account of the danger of reinfection, but Dr. White does not believe it would be effective. However, all avenues of ingress to the city are being watched.

Among the reports from the country were the following:

St. Mary parish: Patterson, 12 cases.
Amelia, 6 new case.
Tallulah, 21 cases in all.
Lake Providence, 9 cases.

The attempt at postponing moving day for a month has had to be abandoned. House rentals in New Orleans cover the year from September 30th to October 1st. A large majority of them have been signed and endless confusion and litigation would probably follow an attempt to prevent tenants from changing their abodes. However, it has been decided that all tenants shall notify the authorities of their intention to move and steps will be taken for the thorough disinfection of all premises where there is a change of occupants.

Another Case at Vicksburg.

Vicksburg, September 6.—One new case of yellow fever was reported today making a total of fifteen, ten of which are still under treatment.

No New Cases at Natchez Yesterday.

Natchez, Miss., September 6.—No new cases of yellow fever were reported to-day. Two patients remain under treatment. A general fumigation of the city is to be made next Sunday.

Mississippi's Infected Towns.

Jackson, Miss., September 6.—Mississippi's yellow fever record for the past 24 hours is as follows:

Vicksburg, 2 new case. one death.
Gulfport, 2 new cases.
Mississippi City, 2 new cases, discovered during convalescent period.
Pearlington, 1 new case.

Quarantine Fight in Atlanta.

Atlanta, Ga., September 6.—The question whether or not Atlanta shall establish quarantine against yellow fever infected points was brought up again to-day after a rest of several days. At a meeting of the State Board of Health the question was carefully considered and as a result formal notices were sent to the Mayor and the City Health Office as representatives of the City Board of Health, notifying them unless the local board shall establish strict quarantine against all infected points within the next twenty-four hours, the State Board will establish such quarantine and will charge the expense to the city. The local board decided last Tuesday not to quarantine. The authority of the State Board in the matter has been questioned and there is a possibility that the local board will resist the mandate of the superior board, and test the matter in the courts. The City Board will meet tomorrow morning when the decision will be made. The outcome will be watched with much interest as the trend of public sentiment appears to be against breaking the precedents of all previous outside epidemics in none of which has Atlanta barred refugees.

Pensacola Doctor Arrested.

Pensacola, Fla., September 6.—Only one well developed case of yellow fever was reported to-day, the patient being Herman Pinney, an operator of the Western Union, which office is located in the infected district. He was taken ill Tuesday and the case was diagnosed as fever to-night. Another case which is believed to be fever, though it has not yet been officially announced, is that of a colored woman who resides within a short distance of where the first case originated. There are quite a number of suspicious cases now being investigated.

Dr. S. M. Gonzales was arrested today on a charge of opposing the State health authorities and circulating false rumors. While in a crowd in front of the official bulletin board Dr. Gonzales asserted that there was no fever in Pesacola, and that the present scare was only for the purpose of getting graft from the public and that there was not a word of truth in the bulletins posted. Later he was arrested.

DISPENSARY GRAFTERS.

Disclosures Made at Investigation in South Carolina.

By Wire to The Morning Star.

Sumter, S. C., September 6.—The most interesting matter developed at the dispensary investigation to-day was the statement that the State dispensary officials supported Talbert for Governor against Heyward in the campaign of 1902. A letter from L. J. Williams to dispensers was read, written on official letter heads, urging them to vote for Talbert. Williams was then chairman of the board of directors of the State dispensary and afterward ran for Congress from the Second district and was defeated. Davis, former dispenser at Florence, now bottle buyer, testified that his salary was $75 per month, and that he made as much more on the side selling empties. This is illegal. Gordon Wilkes, dispenser at Darlington, received a tailor-made suit of clothes and other presents as a reward for looking after the interests of certain houses, according to testimony given to-day.

EIGHTEEN LOST AT SEA.

Terrible Three Months Voyage of British Steamship Tropic.

By Wire to The Morning Star

Charleston, S. C., Sept. 6.—The British steamship Tropic, 2,340 tons, Captain Barber, arrived in this port today after a voyage that had lasted nearly three months and which was filled with excitement. The second mate, pursuer and 15 seamen are missing. Sailing from Valparaiso, Chile, June 21, the Tropic met with bad weather at once and on June 28 while off Putu and about 15 miles from Constitucion the lookout reported "Breakers ahead" and before the ship could be got about she had gone hard aground not over 300 yards from the beach. High seas were running and it was realized that something must be done. The second mate, pursur and 15 seamen put out in the first life boat for Constitucion for aid, but never returned. All night the seas dashed over the Tropic and the 20 men on board huddled in the cabins and momentarily expected the end. Morning brought hope in the sight of men on shore—but there seemed no way to get to theship. No boat could live in the breakers and no swimmer could make the shore. A happy thought came to the captain and W. A. Huckley made a kite cord carried by the wind to shore and next a line and then a hawser reached the land. Over this the men went ashore still hoping that tugs or vessels might come from Constitucion and they waited. When no help came and the storm abated somewhat the vessel remaining in apparently undamaged condition the crew returned in small boats and jettisoned about 200 tons of the cargo this so lightened her that she floated at high tide and the fires being started she sailed for Talcahuano, where a naval court of inquiry was held and the captain and crew exonerated. The report of the court was signed by the British consul at Talcahuano and others and was ample in praises of the pluck and energy of the master and crew while expressing regret at the loss of the 17 men. The grounding is accredited to a deviation of the ship's compasses and the prevalence of a strong inset current off Putu, in latitude 35.09 south and longitude 72.20 west.

The Tropic was 28 days overdue and a cable from Valparaiso to the maritime ergister, dated June 29 said that she would be a total wreck but a later cable from London told that she was floated. The captain and crew show evidences of the strain and they were glad to reach port for fresh food and rest.

OVATION FOR PEACE ENVOYS.

Greetings for Russians and Japanese En Route to New York.

By Wire to The Morning Star.

Boston, Mass., September 6.—Both the Russian and Japanese plenipotentiaries, together with the members of their respective missions, left Boston to-day in special trains, bound for New York. Crowds of people had assembled at the South Station, and as the trains passed out that bearing the Russians, about 1 o'clock, and that of the Japanese, two hous later, enthusiastic demonstrations occurred. Mr. Witte responded to the cheers by appearing on the rear platform and making a brief speech through Mr. Rojestvensky. He gave expressions to the pleasure which the journey had accorded, his thanks at the cordiality of the greeting and his regret that he must leave so soon.

Baron Komura with several members of the Japanese mission visited Harvard University during the day, and was entertained at luncheon at the Colonial Club in Cambridge. Members of the Harvard corporation and prominent Boston Japanese were present. At the railroad station the Japnese departed amidst cheers from the Americans present and a chorus of "banzais" from a large body of their fellow countrymen.

New York, September 6.—Thousands of persons greeted the Russian peace envoys when they arrived at the Grand Central station this afternoon at 5:35 o'clock on a special train from Boston. There was a great demonstration when they left the train and hurried to the Saint Regis Hotel where they will remain while in this city. Mr. Witte and Baron de Rosen were readily recognized and men and women pushed their way toward them. The crowd became so great the party was brought to a standstill, and every one wanted to shake hands with the two men. Both grasped many hands as they slowly made theid way to the sidewalk. The Russian plenipotentiaries and the members of their party will be lavishly entertained while in this city.

The Japanese envoys arrived to-night at 8 o'clock on a special train from Boston. Baron Kaneko, Japan's confidential representative here, with his secretaries and two score of Japanese students, was at the station to greet the envoys. Another great crowd was on hand to cheer the returning plenipotentiaries, and secret service men, city detectives and a heavy guard of uniformed police had to make away for the japanese party. The Russian envoys spent the evening quietly in their hotel.

It is said Mr. Witte may make a flying trip to Washington on Sunday, as he is especially anxious to see the capital. Monday will be spent in this city, and on Tuesday Mr. Witte and his party will sail for home.

Tried the Laudanum Route.

A half-drunken colored woman greated some excitement down town last night by applying at several of the drug stores for laudanum and pleading piteously when denied the drug. A colored man followed the woman and told the druggists that the woman had threatened suicide and not to sell her the drug. Finally she obtained a bottle of the drug somewhere and was in the act of taking it on Second, between Market and Princess streets, when some one jerked it out of her hand and threw it away.

The steamer Aragon, lumber laden from Georgetown, S. C., to New York via Norfolk, which stranded Monday night two miles south of False Cape on the Virginia coast, was floated at 1 o'clock yesterday morning. The Aragon and the lumber laden barge Saxon, which went ashore with the steamer, but was subsequently floated, arrived in Norfolk yesterday afternoon apparently uninjured.

The New York dry goods situation developed strength yesterday and although practically no change in prices were announced, the seller was very independent and refused offers made for quick delivery. The scarcity of spots was the prime feature of the market.
